

# ManipalHospitals

LIFE'S ON 

Manipal Hospitals has a special significance in the overall healthcare industry of India and particularly in South India. It is today the country's third largest healthcare group with a network of 15 hospitals providing comprehensive care that is both curative and preventive in nature for a wide variety of patients not just from India but also from across the globe. At Manipal Hospitals, we are at the leading edge of technological advancements in the medical world. This, along with state-of-the-art infrastructure and facilities, the finest minds in the country and a genuine desire for providing the best healthcare drives us to deliver path-breaking care for our patients on a day-to-day basis. From the smallest to the most complex medical problems, we pride ourselves in the way we deliver healthcare.

In pursuance of the above, we also organize many awareness campaigns and conferences throughout the year. We have used the services of Resonate Productions for the past 4 years for the Manipal Blue Light Campaign on the World Diabetes Day, which is one of our biggest campaigns. We have now also enrolled them as direct vendors with us and they are now supporting us for all our events.

"Their planning is meticulous, execution is flawless and event management is exceptional.. Their conviction to work within the required time frame, attention-to-detail execution and post production support are worth being mentioned. It is an absolute pleasure working with them.

We take this opportunity to testify that they are professionals with a vision to provide quality and mission to be a single point of contact for all event needs.

I just want to say a massive thank you to the team of Resonate Productions for such dedication and hard work.

I wouldn't hesitate to recommend Resonate Productions to meet your conference and event needs."

Regards

Arun Chakravarthy
